

Dear San Francisco Voter:

September 9, 2009

In addition to this Voter Information Pamphlet, our website – *sfelections.org* – provides voters with outstanding election-related information. We continually update the information on the website and there are records of previous elections also available.

Our website provides a voter registration lookup page, an online registration form, and a polling place locator. There is also an online application to request a vote-by-mail ballot, and vote-by-mail voters can check whether we have mailed or received their ballot.

After the polls close on Election Day, we post election results on our website and update them several times throughout the evening. After the election, we will post updated results as we continue to count ballots.
